

**Pipeline Processing Equipment Catalogue: Power Generating Equipment**

**PERKINS GENERATORS**

Topline Perkins Generators are available in various ratings: 50kVA, 75kVA, 100kVA, 150kVA, 250kVA & 350kVA.

The Perkins Diesel Generators are designed to meet ISO 8528 regulation and manufactured in facilities certified to ISO 9001.

Perkins power generation system provides optimum performance, reliability, and versatility for stationery standby, prime power, and continuous duty applications. All generator sets are prototype tested, factory build, and production tested.

**Features:**

- High quality, reliable and complete power unit
- Compact design
- Easy start and maintenance possibility
- Every generating set is subject to a comprehensive test program which includes full load testing, checking and provision of control and safety shut down functions testing
- Fully engineered with a wide range of options and accessories; Canopy, sound proof canopy and on-road trailer.
