## **DOOSAN AIR COMPRESSOR**

Topline Pipeline DOOSAN Air Compressors are rugged and suitable for Onshore and Offshore operations.

Doosan Portable Power offers a skid-mounted, open-frame, high pressure unit with reliable design features. The unit is designed for stationary applications such as oil and gas drilling, and comes mounted on a heavy-duty skid, without on-board fuel tanks and without an enclosure. The fuel tanks can be added as an option on EXPORT units only. All service drains are centrally located allowing maintenance to be performed quickly and easily.

High dependability and long live.

**DOOSAN AIR COMPRESSOR**

### **SPECIFICATIONS:**

<b>Make:</b>	DOOSAN Infracore
<b>Model:</b>	XHP900SCAT (Free Air Delivery)
<b>Rated Delivery:</b>	425 Litres /Sec. (900 cfm)
<b>Rated Pressure:</b>	350 Psi
<b>Power:</b>	360 Amp
<b>Engine Model:</b>	CAT3406BTA (Caterpillar – Diesel)
<b>Full Load Speed:</b>	1800 RPM
<b>No Load Speed:</b>	1200 RPM
<b>Electrical System:</b>	24 Volts
<b>Weight:</b>	5,800 Kg
<b>Dimension:</b>	
Length:	5.70m
Width:	2.25m
Height:	2.58m
<b>Fluid Capacity:</b>	
Compressor Lubricant: Initial (dry) Fill:	208 Litres
Service Refill:	167 Litres
Fluel Tank (Clean Diesel):	680 Litres
